

K-LOVE serves my family as a resident of warrenville in a positive, uplifting manner. The effect on the local community if K-LOVE were to be displaced by an LPFM broadcaster would be devastating to having access to a family oriented radio station. One that we do not have to worry about censoring our children from. The service

K-LOVE provides has a positive influence not only on our family, but our community as well. They provide resources for those in need of encouragement, support and community service.

serve is in the public interest.
